NRPR 101: Fundamentals of Nursing Informatics

 Credits: 39 CE hours

 Length: 13 modules

 Tuition: \$199 USD

Empowering Nurses for the 21st Century

OVERVIEW

This 13 module (39 CE credit) course introduces nurses or other health care professionals to nursing informatics theory, practice applications, self-assessment and skill development for the future.

The course includes learning how computer technology is used in practice for clinical documentation, communication, discharge planning, client education, telehealth, AI, eHealth, expert systems, professional development, networking and project management.

OBJECTIVES - Learners will:

- Understand and apply theory related to computer-human interfaces, ethics, confidentiality and privacy, caring, ergonomics and nursing informatics.
- Explore the dynamics of combining technology with nursing practice.
- Apply principles of data and information documentation
- Discuss the role of nurses in the evolution and implementation of eHealth, mHealth, DSS, and AI.
- Practice client education development
- Explore the use of technology for documentation, decision making, discharge planning, collaboration.
- Create a NI competency plan.
- Analyze the role of nursing informaticians in system research, implementation, and project management.

More Details

All courses are done completely online in our learning management system, including all materials, activities, assessments, assignments and interactions. You will receive electronic copies of all course materials. When done your course, you will receive a digital certificate of completion.

ASSESSMENT

Learners are assessed for their work on a variety of content-driven assignments including:

- * Forums
- * Worksheets
- * Journals

- * Quizzes
- * Tip Lists
- * Planning Tools

- * Databases
- * Posters
- * Case Studies

NRPR 101 MODULES

Module 1:

Nursing Informatics Fundamentals

Module 2

Data, Electronic Health Records and Ethics.

Module 3:

Information Systems in Nursing - NIS & mHealth

Module 4:

Telenursing, eHealth and CHINs.

Module 5:

Nursing Informatics in Client Education

Module 6:

Nursing Informatics and Discharge Planning

Module 7:

Ergonomics, Human Computer Interfaces and Asepsis

Module 8:

Nursing Decision Support and Expert Systems, Artificial Intelligence

Module 9:

Collaborative Information Technology, Networking, Social Media

Module 10:

Technology and Caring, Advocacy and Activism

Module 11:

Nursing Informatician Roles, Responsibilities

Module 12:

Nursing Informatics in Research and Project Management

Module 13:

Continuing Competencies in Nursing Informatics
