

Nursing 4141: Telenursing and Societal Change

Student Name: _____

CASE STUDIES

Describe how telenursing could facilitate quality health care for the following clients (incorporate change theory in your answers).

a) Mrs. Brown, a 78 year old widow who lives in a country home alone, forty kilometers from the nearest town.

b) Mr. Jones, 35 discharged from a local acute care hospital twenty four hours after abdominal surgery.

c) A pregnancy support group located in a small rural village.
